

DISPLAY YOUR GREEN COMMITMENT

PRODUCT OVERVIEW

The Bambooth™ is a modular floor display system with a distinctive, “eco” appearance and feel that expresses your green brand to customers, staff, investors and other stakeholders.

Designed by two **LEED-accredited architects**, The Bambooth™ reflects state-of-the-art thinking in green design and construction.

Versatile – modular design and decorative options allow you to achieve a variety of looks and uses.

Scalable – components can be added for various sizes and configurations.

Durable – sturdy enough for intensive, long-term use.

Ready-to-use – Sets up quickly with minimal tools.

***Pictured:** Basic 3-panel 10' x 10' trade show display with shelves and reception counter.*

MANY POSSIBLE USES FOR The Bambooth™

- *Trade Show Booth*
- *Hotel, Conference Center or Spa Display*
- *Mall Kiosk*
- *Store Shelving*
- *Retail Display*
- *Room Divider*
- *Home or Office Shelves*

The Bambooth™ is made of rapidly renewable bamboo and recycled metal and can be personalized with high-recycled content eco-resin panels, cork inserts or green-printed signage. Equally important, it is built using environmentally sensitive manufacturing processes.

DISPLAY YOUR GREEN COMMITMENT

SIZES AND CONFIGURATIONS

The Bambooth™ can be configured in many different ways, from the basic three-panel display (previous page) to many other designs for a variety of settings. Shown here:

Left top: Additional panels can be used to create a curved design incorporating shelves, decorative eco-resin or graphics where desired.

Left Center: A diagonal layout can also be achieved with five panels, also

Left Bottom: Here's one of many possible wall-sized displays that can be created with these versatile components.

The Tabletop Display (below) can be created from the matching reception counter just by adding a header sign and lighting.

DISPLAY YOUR GREEN COMMITMENT

OPTIONS AND ACCESSORIES

The basic 3-panel Bambooth™ Includes: 3 LED arm-lights, Eco-friendly Crate and Green-Printed Banners and ID Sign. Options and Accessories include:

ECO-RESIN INSERTS

Decorative eco-resin insert panels let light through while lending different colors and textures to your booth. Pictured right: Bamboo Rings, Moss and Bear Grass. ALSO AVAILABLE: CORK

RECEPTION COUNTER

The clever design unfolds into a Tabletop display – a real “2 for 1” deal!

BAMBOOTH SHELVING

Available in bamboo veneer or eco-resin, they slip into place wherever you need them. Sold in packets of three.

ECO-FRIENDLY FLOORING

Recycled tiles, cork or carpet are available in a variety of colors and textures.

We can coordinate your entire display, from planning and design to ordering, delivery, set up and recycling. Request a quote at www.thebambooth.com or contact one of our design consultants at (847) 212-2062 or email sales@thebambooth.com.

DISPLAY YOUR GREEN COMMITMENT

DETAILED SPECIFICATIONS

Wall Panels (each)

Rapidly renewable Bamboo

Frame Size (standard): 3'-0" (36") x 7'-0" (84") x 3/4"

Frame Size (podium/tabletop): 2'-6" (30") x 3'-6" (42") x 3/4"

Recycled metal feet: 7" x 14" x 1/2" with 5" pins that receive the bamboo frames.

All-natural finishes, No VOC (Volatile Organic Compound) finishes

All panels are reversible so that Bamboo fins can be used with compartments that receive shelving.

Display panel inserts

Eco-Resin/Cork Panel inserts: 2'6-3/4" x 6'5-3/4"

Banner Insert 2' 6-3/4" x 6' 5-1/4" with a 1" dowel pocket top and bottom

Banners should be printed with vegetable inks on recycled material.

Flooring

Tile, carpet, cork and other materials made from natural and recycled materials, cradle to cradle.

Choice of manufacturer, colors and textures.

Lighting

LED arm-lights are standard with base unit and tabletop display.

Reduces energy consumption by up to 90% compared to standard incandescent light fixtures

Shelving

Size: 3'-0" x 6" x 3/4" ea. Available in sets of 3

Eco-Resin to match panel inserts

Header Identification Sign

Printed Green on recycled or recyclable material, size to be determined by configuration

ENVIRONMENTAL STATEMENT

All materials are thoughtfully selected with environmentally sustainable features:

1. Rapidly renewable bamboo
2. Natural & no VOC finishes
3. Eco-Resin panels provide environmentally safe, high-impact graphics
4. Recycled metal
5. Graphics are green-printed on durable recycled or recyclable materials

Care has been taken to reduce and minimize energy consumed during construction and use:

1. 40% of energy used in the manufacturing process is from solar sources and all waste is reused or recycled.
2. LED lighting reduces energy usage by up to 90% compared to standard incandescent fixtures.

The Bambooth™ has been optimized for flexibility and durability to provide a long lifespan.

Can be shipped green with carbon offsets and fully recycled.
